South Whidbey School Board

At our last board meeting, we celebrated teacher appreciation week, heard from two teachers who attended national teacher conferences this year, received wonderful presentations from the Alternative Learning Experience students on what they do and what they love about the program, and completed the policy work begun at the past workshop.

At our next meeting, we will get a report on the internal surveys that our building leadership has implemented this year, and we'll begin another round of policy review based on recommendations from the Washington State School Directors Association and other professional organizations.
